

## Healthy Eaters?

Cut up your plate to look like a pie chart that would represent the percentage of each food group in your favorite food.

Glue down the pie chart wedge in the corresponding section of the food pyramid.

## Taller with Age?

Place your person on the point that signifies both your HEIGHT **AND** your AGE

## Movie Sales Bar Graph

Place your movie ticket on the horizontal bar graph to show which movie you would want to see.

## Color Pictograph

Your crayon represents 1 whole.

Cut your crayon up proportionally to represent the colors that are mixed to create that shade.

Glue your fractional pieces to their appropriate place in the pictograph.

Happy Birthday!

There are 366 days  
in a leap year. What day of  
the year is your birthday?

If February 1st is day 32 then  
what day of the calendar year  
is your birthday?

Write your leaf on your flame and  
place it with the appropriate stem in  
the data display
